

Just Live Lite NDI 2026

Streamlined Live NDI Playback for macOS

Just Live Lite NDI is a streamlined NDI® only Live Production playback application designed to simplify your live broadcasts.

It delivers effortless video playback and realtime graphics, while giving you complete control over your production workflow.

Live Playback

Manage and control live production playback of video clips and a single layer of static or realtime graphics over NDI®, all from one intuitive interface.

Mixed Frame Rate Support

Videos encoded with a standard broadcast timebase play out smoothly, with every frame automatically matching the selected channel's timebase for perfect synchronization.

Switch-To-Live

Easily manage incoming live input signals such as live studio signals or satellite feeds, and send them to the NDI streaming output.

Smart User Interface

The smart graphical user interface provides an unlimited, and frame-accurate review and preview of all selected video items including live inputs or custom elements such as timers or clocks.

NDI® High Bandwidth Playback Support

Native NDI High Bandwidth playback of one video and one single layer of static or realtime graphics using Apple silicon hardware and the low-latency NDI technology.

Industry Compliance

Major broadcast file format and codec support, back-to-back playback of mixed container formats, codecs, aspect ratios, pixel sizes and field orders.

Growing File Support

Instant playback of growing files in Live Productions. Great way to accelerate your workflow during a Live Show.

Static and Realtime Graphics

From simple lower-thirds to interactive realtime graphics. Use third-party data for news tickers, stock exchange information, or weather forecasts, with compatibility for singular.live, Viz Flowics, and SPX HTML templates.

SDR, HDR Color Spaces Support

Comprehensive compatibility for both SDR and HDR content, ensuring a seamless and secure broadcast playback experience.

Finished Actions

Advanced finished actions for each clip with Play Next, Cue Next, Reload, Hold, Recue and Loop options.

Supported Codecs

- DV-PAL, DV/DVCPRO-NTSC
- DVCPRO, DVCPRO50, DVCPROHD, HDV
- All Apple ProRes Codecs
- HEVC (H.265)
- XDCAM EX/HD/HD422
- MPEG-2, MPEG-4, H.264
- MPEG IMX (30, 40, 50)
- AVC-Intra, XAVC-Intra
- Avid DNxHD®/Avid DNxHR® (decoder)
- JPEG
- Apple Animation Codec
- AV1

Supported Containers

- MOV, MP4, M4V
- MPG, MPEG
- MXF

System Requirements

- Apple Mac mini, iMac, Mac Studio, Mac Pro 2023 (EOS), Mac Book Pro, Mac Book Air - Apple silicon (M1-M5).
- Apple macOS Sonoma, macOS Sequoia, macOS Tahoe.
- Support for NDI High Bandwidth format.
- One-time online access for license activation.
- For detailed system requirements please consult the online user manual or contact the ToolsOnAir staff.

Supported Frame Rates

- 24, 25, 29.97, 30, 50, 59.94, 60
- Supported frame rates are container and codec specific. Codec support depending on installed Apple Pro Codecs.
